COVER

FIXED VIP / LECTURE / WORSHIP

Engineered for the rooms that listen — university lecture halls, houses of worship, performing-arts venues, and premium suites in arenas.

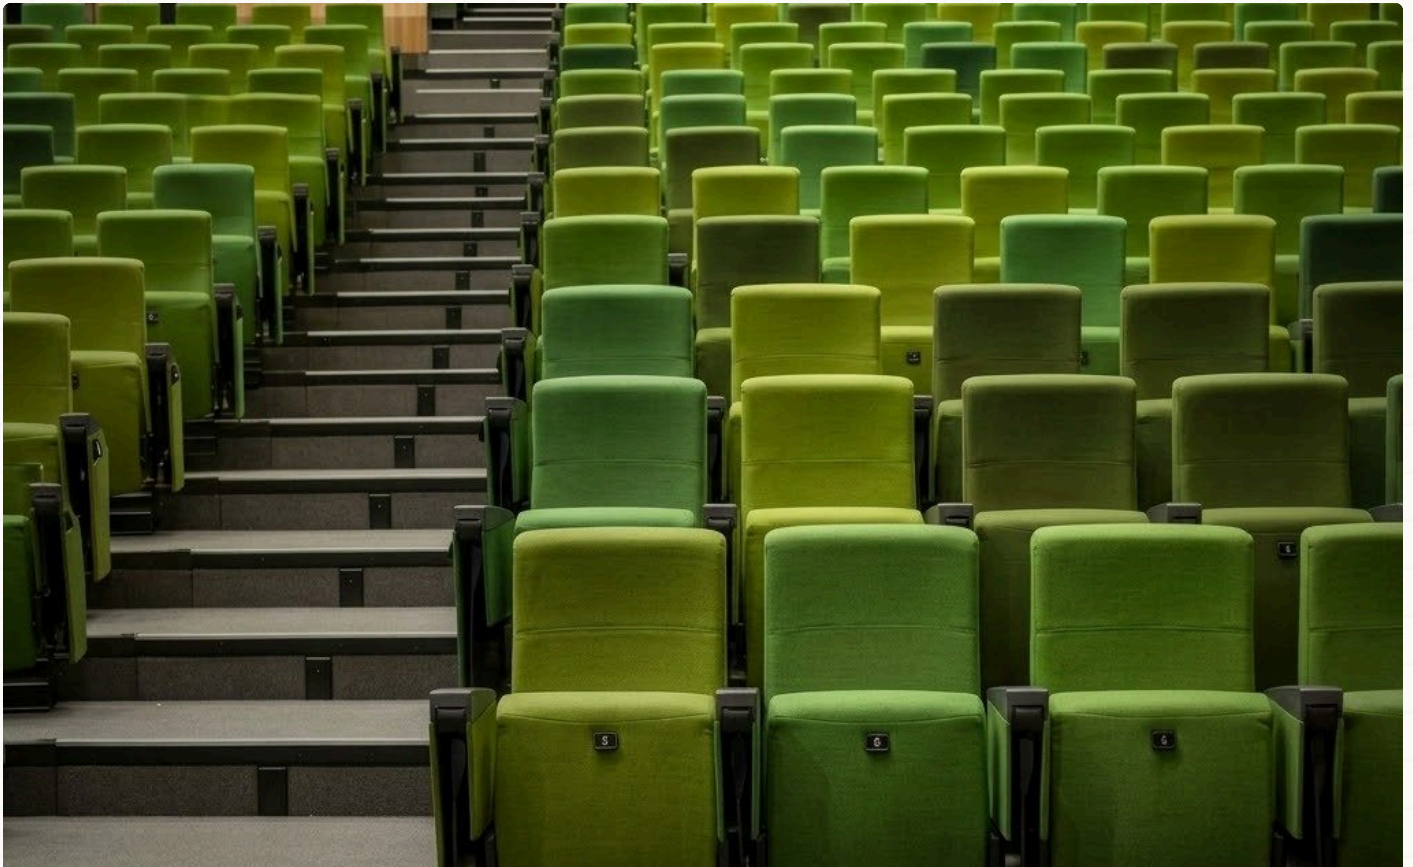

Ergonomically contoured seat and back; molded polyurethane upholstery on a patented foam profile engineered for sustained, multi-hour comfort. The **gravity-tilt seat** is silent and zero-maintenance; **lift-up / lock-down arms** are configurable per venue; the patented **snap-in / snap-out pad system** lets a venue replace seat and back pads in minutes for routine maintenance or full rebranding without touching the chair structure.

Powder-coated steel structure on a pre-treated, polyester powder-coat finish — durable, low-wear, and engineered for venues where the room's acoustics and the chair's silence both matter.

EN 12727 Level 4 certified; **100,000 self-rising cycles** independently tested.

AVAILABILITY

Evoked launches **Fall 2026**. **Open for design specification now** — TaLedi can confirm pricing, send finish samples, and produce shop drawings ahead of launch; production lead times confirmed at launch. Quantum and Forte are available now from the same Hussey +Camatic line.

IMG-EVK-02

Venues Evoke is built for

VENUE TIER	RECOMMENDED CONFIGURATION	WHY IT FITS
University lecture hall	New build or retrofit; dual-use lecture / performance	Silent gravity-tilt; lift-up arms; ergonomic contour for sustained sitting
House of worship	Sanctuary or main hall	Silent operation during services; snap-in pads for periodic refresh without chair removal
Performing-arts venue	Concert hall, recital hall, dual-use auditorium	Ergonomic engineering for two-hour-plus performances; powder-coated steel structure
Premium suite — arena	VIP suite or premium-club box requiring fixed seating	Lift-up arms support in-seat service; custom upholstery and stitching

Fixed stanchion-mount installation

Evoke is **fixed stanchion-mount** — tread-mounted to the floor at the project site, for fixed-floor installations only. The stanchion family is the same powder-coated steel chassis that carries the gravity-tilt mechanism.

For retractable lecture / worship / performance applications, specify **Quattro Modern** or **Quattro Art** on MXP. **For retractable spectator applications**, specify **Quantum** or **Forte** on MAXAM+.

— Configuration menu

— Fixed or Tilt seat · Fixed or Flex back (Flex provides 5½" / 140 mm of natural recline) · Hard-shell or upholstered seat and back outers · Lift-up / lock-down arms configurable per row position.

— Key dimensions

— minimum / typical seat centres 22" / 24" (559 / 610 mm) · total height 41¾" (1060 mm) · seat height 18" (454 mm) · depth 28½" (721 mm) seat down / 24½" (625 mm) seat up.

Options & finish

21 standard polymer colours

Full school / team / venue-colour palette at standard pricing; custom on request.

Molded polyurethane upholstery

Manufacturer's standard fabric and specialty ranges; custom stitch patterns; debossed or stitched logo on backrest.

Patented snap-in / snap-out pad system

Replace seat and back pads in minutes — routine maintenance or full rebranding without touching the chair structure.

Lift-up / lock-down arms

Configurable per row position; supports in-row egress.

Cup holders

44 oz polypropylene; arm- or rear-mount.

Removable chairs

Groups of 1, 2, or 3 for event-flex.

Row lighting

Low-voltage edge lighting.

Easy Access Armrest

At aisle ends — barrier-free transfer for CSA B651 / BCBC §3.8 compliance.

NFPA 102 · GREENGUARD Gold · CWB W47.1 · CSA B651 + BCBC 2024 §3.8 / NBC 2020 §3.8 (Canadian barrier-free) · **EN 12727 Level 4 · 100,000 self-rising cycles** independently tested. Eligible under **Canoe Procurement Group #081523-HSC**.

Backed for the long term

Limited Lifetime structural warranty, conditional on Hussey-approved installation. **5 years** on chair components, gravity-tilt mechanism, lift-up arm hardware, finishes, and upholstery stitching. Patented snap-in / snap-out pad system enables in-place refresh. **Administered locally by TaLedi.**

Submittal

Full submittal package — test reports, fabric samples, installer certification — available at launch (Fall 2026).
Pre-launch design specification, finish samples, and pricing available now from TaLedi. Filed under CSI Section 12 63 00.
