MULTIPURPOSE RETRACTABLE

The upholstered, multipurpose-leaning chair in the MAXAM+ retractable seating menu — built to look as good open as closed.

Preformed plywood seat and back structure, cast aluminium seat posts, and fully contoured upholstery deliver a slim envelope and contemporary European silhouette for performing-arts schools, college lecture theatres, multipurpose halls, and any venue where the bleacher must read clean from the stage.

Six seat-centre widths and three armrest families let the chair tune to the audience profile rather than asking the venue to compromise. Three operation modes — Manual, Lift-Assist, Auto-Fold — share hardware with Metro on MAXAM+. **Limited Lifetime structural warranty** on chair components per the Hussey Seating Company Interior Fixed Seating Collections warranty.

IMG-63-09

Venues Gallery 3 is built for

VENUE TIER	RECOMMENDED CONFIGURATION	WHY IT FITS
Performing-arts school / theatre	MAXAM+ with Gallery 3, satin black metalwork, T-grade fabric	Slim envelope reads cleanly on stage; wool-blend fabric tier suits theatre acoustics
College / post-secondary lecture theatre	MAXAM+ with Gallery 3 + Anti-Panic folding writing tablet	Lecture-mode capable; six seat widths tune density to room
Multipurpose hall (K-12 / community)	MAXAM+ with Gallery 3 Manual or Lift-Assist	Upholstered comfort tier; armrest options match venue tier
Worship / arts-leaning facility	MAXAM+ with Gallery 3 upholstered armrests	Contemporary styling, contoured comfort, quiet operation

Mounts to MAXAM+ only

Gallery 3 mounts to the MAXAM+ telescopic platform beam-rail system. The chair envelope clears all three standard MAXAM+ row rises — **9⁵/₈" (245 mm)**, **11⁵/₈" (295 mm)**, and **16" (406 mm)** — across every armrest configuration; the folding writing-tablet configuration is the only constraint that lifts the rise floor to the mid rise.

— MAXAM+

— primary and sole platform. *Standard MAXAM does not support Gallery 3.* A facility specifying Gallery 3 in any row drives the entire platform decision to MAXAM+.

— MXP / Seatway TP

— not compatible on this product. Use Metro on MXP, or the Hussey Seatway Gallery 3 family on Seatway TP.

Seat-centre widths

SIX AVAILABLE

18¹/₈ 460	18⁷/₈ 480	19⁵/₈ 500	20¹/₂ 520	21¹/₄ 540	22 560
IN			MM		

Min. seat centre	IN	MM	Min. row rise (MAXAM+)	IN	MM
No arms	18%	460	No arms / with arms	9%	244
With arms	19%	490	With folding writing tablet	11%	295
With folding writing tablet	20%	520			

Dimensions assume fully upholstered chairs as standard. Show-wood seat / back panels are not offered on this model.

Three operation modes — Hussey calls the progression *good / better / best*. Mechanism family is shared with Metro on MAXAM+; mode is specified at order entry.

MODE	HOW IT WORKS	RIGHT FOR
Manual	Foot-assist raise; chairs ganged in groups of one to four directly at each row. Mechanically simple, no power dependency.	K-12 multipurpose halls, single-custodian operation.
Lift-Assist	Tool-actuated from the aisle. Gas spring assists the raise, gas strut dampens the descent — one to fourteen chairs as one ganged row. Operator never touches an individual chair.	Universities, multipurpose halls, convention centres, performing-arts venues.
Auto-Fold	Same Lift-Assist hardware with a cascading row strike: set Row 1 with the tool, then closing the bank folds every subsequent row on its own.	High-volume venues turning the floor over multiple times a week.

In addition to the row mode, Gallery 3's seat pan is **spring-activated** with a fully enclosed stop mechanism — the seat returns to upright on its own when the patron stands. Optional gas struts dampen the seat-pan return for a quieter close.

Armrest, writing-tablet, and accessory options

Armrests

three families — **polymer**, **wood**, or **upholstered**.
Match to the venue tier (or specify no arms for narrowest density).

Folding writing tablet

Anti-Panic auto-close mechanism for lecture-mode use.
Requires 20½" (520 mm) minimum seat centre × 11⅝" (295 mm) minimum row rise.

Cup-holders

seat-back mounted, optional.

Seat numbering and row-letter identification

optional.

Gas-strut seat-pan dampening

optional, for a quieter seat return.

Slim-profile fabrics required to clear the retractable mechanism. Fabric selected per project — contact TaLedi for the upholstery selection guide.

NFPA 102 · GREENGUARD Gold · CSA B651 + BCBC 2024 §3.8 / NBC 2020 §3.8 (Canadian accessibility — Transfer Arm End supports aisle-seat wheelchair-transfer requirements) · **CWB W47.1 Div 3 · ICC 300** (via MAXAM+) · **ICC-ES ESR-5033**. Eligible under **Canoe Procurement Group #081523-HSC**.

Backed for the long term

Limited Lifetime on structural standards, cast seat supports and brackets, seat-return springs, and the beam-and-bracket assembly. **5 Years** on seat and back assemblies, fold-down mechanism, self-rising seat, tablet-arm mechanism, electrical, upholstery stitching, and surface finishes — labour included the first five years. Named on Hussey Seating Company's **Interior Fixed Seating Collections warranty** (Sept 2025 Rev. 1), covering Quattro, Metro, Fusion, Legend, Quantum, and Forte. Hussey-approved installation required; **service administered locally by TaLedi**.

Submittal

Full submittal package — TB 117 and NFPA 102 test reports, GREENGUARD Gold certificate, ICC-ES ESR-5033, CWB welding certifications, fabric and finish samples, MAXAM+ platform shop drawings, and Hussey Seating Company Interior Fixed Seating Collections warranty — lives in the formal **Gallery 3 Performance Specification** and the **MAXAM+ Performance Specification**, filed under **CSI Section 12 66 23 — Telescopic Chair Platforms**. Available on request from TaLedi.
