COVER

**MUNICIPAL · SCHOOL · COMMUNITY SPORT**

A workhorse stadium chair, with a lifetime-warranty spring — cost-effective fixed seating for indoor or outdoor stadia, arenas, and amphitheatres.

Cast-iron standards with **integral scrolled cast-iron armrests**, blow-moulded polyethylene seats and backs, and a **dual-action seat-return spring mechanism** that carries a **Lifetime Limited warranty**.

Two engineering details set Legend apart inside the value tier: the **back panel extends below the seat bottom** — eliminating the toe-catch hazard between back and seat and improving cleaning access — and the **dual-action spring** delivers a controlled return that outlasts conventional single-action seat hardware.

IMG-LEG-02

## Venues Legend is built for

VENUE TIER	RECOMMENDED CONFIGURATION	WHY IT FITS
<b>Municipal stadium / fairground</b>	Riser- or floor-mount; redirected stanchions for sightlines	Civic stadia, fairgrounds, outdoor sporting venues with spectator focal points
<b>High-school sporting facility</b>	Integral-cast logo end standards, custom-colour shells	Public-school football, soccer, baseball venues with school branding
<b>Community arena / multipurpose</b>	Optional pads and cup holders	Hockey arenas, multipurpose community sporting venues
<b>Outdoor amphitheatre</b>	Inorganic-pigment shells and marine-grade vinyl pads	Outdoor amphitheatres and music venues with sustained UV exposure

## Anchorage & chair structure

Legend is a **fixed product** — riser-mounted or floor-mounted on slab. **Redirected stanchions** for ballpark sightline orientation (e.g., toward home plate) without shimming.

**Quattro fixed-seat upgrade** available as a configuration option on standard Legend stanchions — outdoor projects require the Quattro Extreme Seat. Quattro upgrade fits Legend with full-envelope cast-iron stanchions; not offered with armrest cup holders, on reduced-envelope stanchions, or on steel Olympiad stanchions.

### — Standards

- cast iron Class 25 grey iron, riser- or floor-mount, integral scrolled armrests, straight or redirected. **End panels**
- cast iron, plain or with integral-cast logo.

### — Seat & back

- double-wall blow-moulded polyethylene, ergonomically contoured. **Open-slat back** with nostalgic styling; **back extends below seat bottom** for toe-catch elimination.

## Options & accessibility

### Dual-action seat-return spring

Two independent spring-lift mechanisms per seat, concealed in hinge arms — Lifetime Limited warranty.

### Marine-grade vinyl pads

Optional seat and back pads — individually field-replaceable.

### Cup holders

Back-mounted (Caddy Products).

### Identification & branding

Recessed seat numbers and row letters — etched aluminum, vandal-resistant recesses · integral-cast logo end standards.

### Cast-iron finish

Exterior-grade **TGIC polyester powder topcoat over epoxy primer; 2H Pencil Hardness and 1,500 hours Salt Spray**. Indoor structural connections zinc-plated steel; outdoor 300-series stainless steel.

### Accessibility — easy-access armrest

Hinged armrest on aisle-end standards (floor-mount only) for side access.

### Accessibility — armless aisle standard

Aisle-end standards supplied without armrest (floor-mount only).

### Accessibility — wheelchair accommodation

Skid-mounted companion chair · removable 1- / 2- / 3-chair modules on painted steel skid · Roll-A-Way mobile 2- / 3-chair module with casters.

### LEED & environmental

Cast iron ~70 % recycled · polymer 100 % post-consumer recycled · all components recyclable.

**15 standard polymer colours**; custom on request. Polymer meets **Delta E ≤ 5** colour-consistency standard across batches — critical for multi-phase installations.

**For UV-exposed outdoor installations**, specify inorganic-pigment colours (navy, dark red, dark green, black); organic-pigment colours fade faster under sustained UV.

**NFPA 102 · GREENGUARD** indoor air quality · **CSA B651 + BCBC 2024 §3.8 / NBC 2020 §3.8** (Canadian barrier-free) · **CWB W47.1**. Eligible under **Canoe Procurement Group #081523-HSC**.

## Backed for the long term

**Lifetime Limited** on the dual-action seat-return spring mechanism — the controlled-return hardware that defines the chair — plus structural standards, cast seat supports and brackets, and the beam-and-bracket assembly. **5 Years** on assembly hardware, self-rising seat, gravity-tilt seat, and polymer crazing. **3 Years** on seat / back assemblies and powder-coat finish. **1 Year** on polymer finish (5 Delta-E fade threshold). Labour included the first five years. Named on Hussey Seating Company's **Exterior Fixed Seating Collections warranty** (Mar 2025 Rev. 2). Marine-grade vinyl pads field-replaceable; monthly cleaning recommended within 5 km of saltwater. Hussey-approved installation required; **service administered locally by TaLedi**.

## Submittal

Full submittal package — material certificates, Lifetime Limited warranty document for the spring mechanism, GREENGUARD certificate, anchor-test evidence, shop drawings, maintenance plan — lives in the formal **Legend Performance Specification** filed under **CSI Section 12 63 00**. Available on request from TaLedi.
