PUBLIC SEATING SYSTEMS

COVER

**RETRACTABLE EXTENSION · MULTI-USE**

Continue the audience seating onto the flat floor — same fabric, same finish.

Strata is Hussey Seatway's flat-floor stacking chair, designed to **form complete auditorium rows or complement banks of retractable seating** with matching upholstery in either Gallery 3 or S-200 finish. **Integral linking mechanism** and **row-spacer bars** hold rows consistent across the layout.

**Storage trolleys** enable rapid deployment and strike for multi-use halls, banquet rooms, and conference venues. The result is one continuous audience experience — the retractable bank handles the tier; Strata handles the floor — without breaking the visual or material language.

IMG-STR-02

## Venues Strata is built for

VENUE TIER	RECOMMENDED CONFIGURATION	WHY IT FITS
Retractable extension	Strata with Gallery 3 upholstery match	Performing-arts venue extending Seatway TP onto the flat floor
Retractable extension	Strata with S-200 upholstery match	Lecture / auditorium venue extending an S-200 retractable bank
Standalone multi-use hall	Strata in linked rows	Banquet rooms, conference halls, civic venues — complete rows from Strata alone
Worship / community	Strata with row-spacer bars	Sanctuary or assembly seating with controlled row spacing

## Flat-floor stacking — no platform

Strata is a **flat-floor stacking chair** — no platform required. Integral linking holds rows side-to-side; row-spacer bars hold rows fore-aft.

Strata's primary architectural value is **fabric and finish match** to the venue's retractable bank: Gallery 3 finish or S-200 finish. When the retractable bank closes, the Strata extension stays in place to host receptions, rehearsals, or banquet-mode events on the same floor.

### — Configurations

— Strata No-Arms (linkable; rows form with row-spacer bars) · Gallery 3 finish or S-200 finish upholstery match · integral linking (standard) · storage trolley (accessory).

### — Key dimensions

— seat centre 19"–22" (480–560 mm) · total chair height 32¼" (820 mm) · seat height 17½" (447 mm) · open seat envelope 23½" (600 mm) · design row depth 35½" (900 mm) · typical stack height 37" (943 mm).

## Options & finish

### Integral linking mechanism

Holds row consistency in audience mode.

### Row-spacer bars

Lock fore-aft spacing across multiple banks.

### Upholstery match

**Gallery 3 finish** or **S-200 finish** — identical fabric, foam, and contour to the retractable bank.

### Storage trolleys

For stack-and-move operations.

### Identification & branding

Recessed seat numbering · row letters for consistent wayfinding across both areas · custom upholstery panels matched to the retractable bank's branding.

### Powder-coat metalwork

RAL 9005 Satin Black standard.

**Upholstery matches the venue's retractable bank** — Gallery 3 finish or S-200 finish. Hussey Seatway upholstery is open-spec across Camira, Bradbury, and Fidivi (Camira Xtreme · Camira Era · Fidivi Radio · Bradbury Flamblend pre-vetted); whatever fabric was specified on the retractable bank carries through to Strata.

Architectural intent is **identical fabric, foam, and contour** between the retractable seat and the Strata flat-floor seat.

**NFPA 102 · GREENGUARD Gold** (certified for North American projects on request) · **CSA B651 + BCBC 2024 §3.8 / NBC 2020 §3.8** (Canadian barrier-free, layout-level coordination) · **EN 12727 · BS 5852.**

## Backed for the long term

**5 years** parts and labour on the chair (frame, seat assembly, backrest, linking mechanism) — Hussey Seatway Limited Guarantee. Fabric warranty per upholstery manufacturer's terms. **Biennial inspection cadence** by a Hussey Seatway-approved service technician. **Service administered locally by TaLedi.**

## Submittal

Full submittal package — test reports, shop drawings showing row layouts, upholstery match specification (Gallery 3 or S-200), storage trolley quantity and location plan — lives in the formal **Strata Performance Specification** filed under **CSI Section 12 61 00**. Available on request from TaLedi.
